

Premises Identification

FOR THE NATIONAL LIVESTOCK TRACEABILITY SYSTEM

WHY IDENTIFY THE PREMISES?

Knowing where livestock and poultry are located provides valuable information in responding to animal disease outbreaks and food safety issues. This allows for a swift and accurate response in the event of an animal disease outbreak or natural disaster.

WHAT ARE "PREMISES" IN THE CONTEXT OF TRACEABILITY?

According to the definition given by Agriculture and Agri-Food Canada: "a premises is any parcel of land on which animals, plants or food are grown, kept, assembled or disposed of".

The "premises" are defined by a legal land description of the lot, or in its absence, by its geo-coordinates.

PREMISES INCLUDE:

- Farms and stables
- Pastures and community pastures
- Feedlots
- Assembly yards
- Abattoirs
- Auction and livestock sale facilities
- Racetracks and competition facilities
- Rendering plants
- Exhibitions and fairgrounds
- Veterinary facilities
- Livestock and poultry research facilities
- Hatcheries
- Insemination centres
- Zoos and petting zoos

WHAT IS A PREMISES IDENTIFICATION NUMBER?

It is a unique identifier, based on national standards, that is assigned to a "premises" within a province or territory.

The national standard for premises-ID numbers is:

- 2 letters for the province;
- + 6 alpha-numeric characters;
- + 1 check digit.

Examples of premises-ID:

AB1234561

ON1234565

HOW TO USE IT?

The premises-ID number is the only location identifier for animal movement reporting.

HOW DO I GET MY PREMISES-ID NUMBER(S)?

The identification of premises is the responsibility of the provincial government.

We invite you to contact your provincial association or your provincial department of agriculture directly for further information.
